---

Dear Hiring Manager,

I am writing to express my interest in the Full Stack Developer position at your company.

I am a Full Stack Web Developer from Bangladesh with practical experience building modern web applications using JavaScript, React.js, Next.js, Node.js, Express.js, and MongoDB.

Through my projects, I have developed practical solutions including a multi-tenant WhatsApp Business messaging platform, a hospital appointment and management system, and a community management website. These projects have helped me strengthen my skills in frontend development, backend APIs, database integration, authentication, and third-party API integrations.

I am passionate about writing clean, maintainable code and building applications that solve real-world problems. I am also continuously learning and improving my technical skills.

I would welcome the opportunity to contribute my skills, enthusiasm, and dedication to your development team. I am currently based in Bangladesh and open to relocation for suitable opportunities.

Thank you for considering my application. I look forward to the opportunity to discuss how I could contribute to your team.

Kind regards,

Azizul Islam Adnan
